Some information about the talented, down-to-earth, reliable, trustworthy, thoughtful, honest, loyal and genuinely nice guy...

**Justyn Hall. Graphic Designer.**

I have worked in the design and advertising industry for over twenty three years. I bring enthusiasm and passion to every project no matter how big or small and above all, I enjoy finding individual solutions to every challenge I face.

I have worked with a wide variety of clients from SMEs to large corporations, working on everything from web and design communications to brand creation and identity implementation.

I have developed a number of key skills over the years working with the latest Adobe and Microsoft software.

I am confident moving projects from the initial brief to final delivery, liaising with external suppliers and arranging print. I have fast, accurate Mac artworking skills, a good eye for colour and typography, as well as photography and retouching experience. I also have some experience with HTML, CSS and Wordpress.
